AWARDS

With Honors at St. Tonis College during 12th Grade.

PROJECTS

BLINC.PH — *Bitshareslabs Inc.*

Link: <https://blinc.ph/>

A web3 freelancing platform for digital workers and businesses.

Roles & Responsibility:

- Assigned as the lead developer and full-stack developer during the development process.
- Involved in the design and planning process utilizing Figma, Photoshop and Adobe Illustrator as the main tools for designing the project.

Bibeverse — *Bitshareslabs Inc.*

Link: <https://bibeverse.com/>

BIBE Token, built on the Tezos blockchain which aims to innovate the meme coin space.

Roles & Responsibility:

- Responsible for converting the final design to code using TailwindCSS as the design framework.

BLINC.PH Nextjs — *Bitshareslabs Inc.*

Github: <https://github.com/KyleGhats/blinc-ph-nextjs>

Developed BLINC.PH (freelancing platform) using nextjs framework in its initial phase but due to server incompatibility, I had to convert it to PHP and vanilla JS. Converting this project significantly improved my coding skills in JavaScript and PHP.

Case Study — *Personal Project*

I found a website that had a red, blue and white theme and thought to challenge myself to redesign the website but in dark mode using bootstrap as its framework.

Github: <https://github.com/KyleGhats/sportsTXT>

Figma: [Design Link](#)

Client Portfolio — *Freelance Project*

Portfolio website for a client, it was a requirement before they graduated. HTML, Bootstrap, CSS, and JS are the main developing tools used for this project.
